Mobile recreational cabin

Tiny Relax is a mobile home concept for people, who appreciate the comfort of living at home in any location of their choice. As the owner of one of the Tiny Relax mobile homes, you can change location whenever you want.

Tiny Relax 671

Tiny Relax mobile homes are equipped with a chassis with overrun brake and have all the necessary connections (electrical and hydraulic). Their steel construction ensures the rigidity and durability of the whole. Each mobile home is equipped with energy-efficient underfloor heating and air conditioning.

In addition to their recreational use, Tiny Relax mobile homes are ideal for supporting your business. For example, if you are a property developer, run a car dealership or simply need a mobile office where you can meet with your clients, Tiny Relax mobile homes are the perfect solution!

Tiny Relax 671 equipment

In each bungalow you can create your own interior design, selecting the elements so,

so that they meet your expectations and allow you to live to your desired standard.

However, in order to make your decision easier, we have also prepared some already proven solutions.

In our range you will find three basic house sizes –

TR671 , TR731 , TR851

The cabins are 6, 7 and 8 metres long.

You can order any of them, adjusting the standard of finishing to your needs and expectations:

Developer's state – all the necessary outlets – water sewage, electrical and internet connections. Wooden walls. All enclosed in a compact structure on a running chassis with a brake.

To be configured – Developed condition + possibility of choosing kitchen, bathroom, staircase or mezzanine floor.

Full version – Fully furnished, ready-to-use cottage once the utilities have been connected.

In addition, there are ready furnished cabins in our warehouse at your disposal. The equipment table is ready to download from our website www.tinyrelax.com.
